## Why IFOS Paris 2017?

### The largest and most prestigious ORL scientific event

**IFOS Paris 2017** is the representative international congress of the global ORL-HNS community, held only once every four years in major cities around the world. The Scientific Program includes keynote lectures, plenary sessions, symposia, round tables, industry sponsored symposia, and panel discussions as well as free paper presentations. Thousands of physicians, scientists and industry representatives from nearly every corner of the globe will gather together in one location for this premier event.

## Editorial

The World ENT congress, taking place in Paris, in 2017, should be an essential event for the ENT worldwide community, regardless of nationality and type of practices. With the IFOS board, we have decided to put this event under the sign of a triple mission: **Diversity, Innovation and Evaluation.**

- **Diversity** of practices and resources around the world.
- **Innovation** to link basic science and clinical research.
- **Evaluation** of quality of care, leading to worldwide guidelines.

The social program will be outstanding, focusing on Paris, the “*Ville Lumière*” but also on the diverse senses of the ENT field. We are expecting you, from all over the world, to affirm the strength and dynamism of our specialty.

**“IFOS Paris 2017 - ENT WORLD Congress” is waiting for you !**
